Re: Bridgeton Landfill Pond Closure Documentation

Dear Ms. Fitch:

The documentation provided herein documents the closure activities of the 5-acre leachate pond at the Bridgeton Landfill in Bridgeton, Missouri. This closure was performed in accordance with the November 1998 report developed by Herst and Associates, entitled "Leachate Pond Closure Work Plan - Bridgeton Landfill, L.L.C.". This work plan was approved by the Missouri Department of Natural Resources within a June 18, 1999 letter to the Bridgeton Landfill L.L.C.

This submittal consists of three separate components. Feezor Engineering, Inc. completed the document entitled "Construction Documentation Report - Bridgeton Leachate Pond Closure", and a set of full size as built drawings entitled "As Built Record Drawings for the Leachate Pond Closure Bridgeton Landfill". Herst and Associates, Inc. provided the report entitled "Non-Engineering Construction Quality Summary Report". All construction observation and documentation was performed under the supervision of Daniel Feezor, P.E.

If you have any questions or comments, please contact me at your convenience at (217) 753-3988 until April 30, 2005 or at (217) 483-3118 after April 30, 2005.
